Whiteness(CIE):	160 acc. ISO 11475
Opacity:	95% acc. ISO 2471
Standard roll width:	17", 24", 36", 42", 50", 54", 60"
Standard roll length:	30 m
Storage:	at 15°C - 25°C, 50% rel. humidity
Shelf life:	24 month in original boxes

COMPATIBLE INKS:

Dye:	yes	Latex:	yes
Pigment:	yes		

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Water Coated Paper 140

Description:

You can print on WACOPA140 with common dye, pigment and UltraChrome inks. The special amount of the coating permits a fast drying and short workflow.

The smooth and pore free surface allows pleasant haptic perception and minimises micro silvering from lamination.

Processing:

We advise cold or hot lamination to protect the prints from abrasion. We recommend lamination films from the EMBLEM LAMPER Series for cold lamination.

Before lamination the print has to be completely dry, otherwise there is the risk of bubbles.

Please store the paper in original packing.

To avoid fingerprints the use of cotton-gloves is advisable.

Application:

Typical applications for WACOPA140 are shop window advertising, posters, presentations, form proof, renderings and GIS maps.

Product recommendation:

We recommend to use EMBLEM LAMPER series films for cold lamination.
